June 2024-September 2024

Mechatronics Engineer – *Porsche Albania*

- Led the integration and testing of advanced mechatronic systems, including electronic control units and automated mechanical components, to ensure seamless operation and adherence
 - Worked closely with mechanical, electrical, and software engineering teams to troubleshoot complex issues, develop innovative solutions, and support the continuous improvement.
-

EDUCATION

3rd year of Bachelor's

University degree Mechatronic Engineering

Polytechnic University of Tirana
2021-2024

SKILLS

- Creativity
- Communication
- Teamwork
- Meeting deadlines
- Hard Working
- Critical thinking

CAREER OBJECTIVES

To work in a challenging environment where I can integrate mechanical, electronic, and software components to create cohesive, high-performance systems that solve complex engineering problems . To leverage my expertise in mechanical cutting-edge mechatronic systems that drive technological projects.
