ABOUT ME

Highly disciplined boxer with 8 years of experience in fight pacing, stamina management, and tactical execution, combined with hands-on experience as a CNC Machine Operator in precision manufacturing. Skilled in controlling the tempo of fights, utilizing footwork, counterpunching, and endurance strategies to maximize performance in the ring. Adept at adjusting pacing to opponents' strengths and weaknesses, ensuring optimal energy conservation throughout the fight. Committed to continuous improvement, both in athletic performance and technical expertise, with a passion for learning, discipline, and achieving excellence in both fields.

WORK EXPERIENCE

Boxer Pacing

Organization: Exide Industries Ltd (India)

Duration: 2016 - 2023

- Maintained controlled pacing throughout fights to optimize stamina and maximize performance.
- Utilized lateral movement and angles to maintain efficient pacing and avoid unnecessary fatigue.
- Balanced offensive aggression with defensive awareness to sustain energy over multiple rounds.
- Trained in various pacing strategies, including slow-building rounds and explosive burst attacks.
- Engaged in high-intensity interval training (HIIT) to enhance endurance and improve fight pacing.
- Managed energy output during fights to avoid early exhaustion while maintaining a strong finish.
- Implemented progressive overload training to build strength and endurance for prolonged fights.

CNC Operator

Organization: Gopinath Engineering Com. Pvt. Ltd Ghatkoper Est Mumbai (India)

Duration: 2023 to Present

- Skilled in operating CNC milling, turning, and grinding machines for precision manufacturing.
- Maintained detailed records of production outputs, machine settings, and maintenance logs.
- Reviewed job orders and blueprints before starting production to ensure accuracy and efficiency.
- Achieved a zero-accident safety record by strictly following OSHA and company safety guidelines.
- Recognized as Employee of the Month for exceptional performance and commitment to quality.
- Conducted trial runs and first-piece inspections to validate machine setup before full production.
- Ensured a clean and organized work environment by following 5S lean manufacturing principles.

EDUCATION

Secondary Level Education (9th)

Institution: Kakasaheb Mhaske Vidhyalay Midc Magapur Ahmednagar India

Year of completion: 2009
